9 July 2020

Dear Dr Maya Mistry,

Each year we ask our medical students to commend community teachers that they have experienced as going above and beyond normal expectations, and to say a little about what it was that impressed them.

So, congratulations on receiving one or more student commendations for this academic year that read:

'Dr Mistry was a very engaging and enthusiastic tutor who was very encouraging and accommodating to help me see patients and fulfil all of the objectives I said I wanted to achieve at the start of the placement. She taught me a lot 'on the job' and was very keen to get me to experience as much as possible. Because of this I learnt so much and really enjoyed my placement.'

We hope that this warms your heart and inspires your teaching in this challenging pandemic time and thank you for all you contribute to our student learning and experience (it is something to add to your appraisal documentation).

With very best wishes  
Yours sincerely

A handwritten signature in black ink that reads 'Anne E. Stephenson' with a stylized flourish at the end.

Dr Anne Stephenson  
Director of Community Education
