The Oxford Knee Score is: **Grading for the Oxford Knee Score****Score 0 to 19**

May indicate severe knee arthritis. It is highly likely that you may well require some form of surgical intervention, contact your family physician for a consult with an Orthopaedic Surgeon.

Score 20 to 29

May indicate moderate to severe knee arthritis. See your family physician for an assessment and x-ray. Consider a consult with an Orthopaedic Surgeon.

Score 30 to 39

May indicate mild to moderate knee arthritis. Consider seeing your family physician for an assessment and possible x-ray. You may benefit from non-surgical treatment, such as exercise, weight loss, and /or anti-inflammatory medication

Score 40 to 48

May indicate satisfactory joint function. May not require any formal treatment.
